Summary:

Dedicated and versatile Web Designer and Front-end Developer with extensive experience in creating visually appealing and responsive websites. Skilled in HTML, CSS, JavaScript, and a range of development tools. Proficient in managing online projects and producing engaging content. Adept at turning creative ideas into functional designs while staying up-to-date with the latest web trends and technologies. Eager to contribute my expertise to a dynamic team and contribute to digital innovation.

Experience:

Freelancer (2017-Present)

Web designer / Front-end Developer

- ✓ Successfully delivered web design projects for various clients, leveraging a combination of creativity and technical skills.
- ✓ Developed responsive websites for diverse purposes, including Zokorazone.com, Souqdarna.com, and Alshaameel.com.
- ✓ Collaborated closely with clients to understand their needs and translate them into user-friendly interfaces.

Mubex Cryptocurrency Project (2017)

Web Designer

- ✓ Led the design of a fully responsive website for the Mubex cryptocurrency project.
- ✓ Gained proficiency in front-end technologies and acquired basic knowledge in PHP and MySQL for backend development.
- ✓ Managed team roles, fostering effective communication and coordination.

Websites and Blogs Administrator (2011-2014)

Vbulletin, Wordpress & Blogger

- ✓ Established and managed a variety of websites, including android-kingdom.com (600+ articles, 5M+ views) and romisya.com.
- ✓ Utilized HTML, CSS, and gained experience in JavaScript and PHP for website customization.
- ✓ Developed skills in content management, SEO optimization, and community moderation.

Blogs Administrator & Content Writer (2008-Present)

Blogger and Google Adsense

- ✓ Initiated an online presence as a blogger, generating SEO-friendly content and monetizing through Google Adsense.
- ✓ Passion for writing and teaching led to a strong understanding of HTML and CSS, inspiring the creation of personal websites.
